Case No. 2003-00266

**Responses of
Midwest Independent Transmission System Operator, Inc.
to the LG&E/KU 10/6/04 Data Requests**

Midwest Independent Transmission System Operator, Inc. ("Midwest ISO") hereby responds to the data requests propounded by Louisville Gas and Electric Company and Kentucky Utilities Company (collectively, "LG&E/KU") on October 6, 2004. Midwest ISO's response consists of one bound volume of text responses and attachments. In addition, the undersigned counsel is e-mailing to counsel of record three (3) electronic files, in Excel format, of spreadsheets that have been provided in paper form.

Counsel for Midwest ISO, rather than the witness listed, are responsible for any objection interposed to a particular data request. In addition to specific objections noted as to individual requests, the Midwest ISO generally objects to requests in which LG&E and KU have mischaracterized or misinterpreted provisions of the Midwest ISO's Energy Markets Tariff ("EMT") or make generalized and overbroad statements regarding the EMT without specific citations or textual references. A number of requests also ask for information different from or unconnected with that in the prefiled testimony or otherwise misconstrue or take the testimony out of context. In most instances, in a spirit of cooperation and without waiving the objection(s), a response has nonetheless been provided. Any response provided does not indicate agreement with
